"Rust" was first announced on August 14th 2021 at PAX East by Garry Newman of Facepunch Studios at the "Facepunch Developers Showcase", being introduced primarily via podcast "Coffee with Garry". Announced as a survival game set in an "M-rated" world with mining and crafting, the game became playable on Steam Early Access on January 12th, 2021. After five months of development, Facepunch decided to shift their focus towards releasing modding tools and the ability to edit the design of popular maps instead, which they started implementing into the game on June 18th.",

Gamy also offers combat friendly Minecraft servers so you can play on your own server without being attacked by other players or grieved by admins. If you want to play on a combat friendly server, click here for more information.",

Rust is primarily played on Slither.io, an online multiplayer server based in Germany with the majority of servers based in North America. Rust has been praised as being "pure fun" and "a breath of fresh air", while criticism included the poor graphics compared to other survival games such as "Minecraft". Due to its ability to be played on servers without custom content, it is also much less popular than Minecraft due to better compatibility of graphics with other graphical engines. On January 7th 2021, Steam announced that "Rust" had officially passed 10 million sales, and by August 2021, the game had sold over 3.5 million copies alone on Steam. As of April 20th 2021, "Rust" has sold over 5 million copies across all platforms including Steam.",

Minecraft Servers are generally run on either a physical server or a virtual private server (VPS). A physical server hosted by the user and rented from third-party companies, ISPs, universities etc. or free services like NFOservers.com, Adverline.pl and VirtualRack.co.uk which are VPS's seems to be the most common way to host your Minecraft Server. A VPS or physical server is better for most, since it is more stable and customizable and can be set up to run on the same machine as the player's computer allowing for an instant jump in to a server when desired.",
