I have always wondered why people enjoyed playing Roblox so much. I think it's because it's very similar to Minecraft in many ways; for one thing, the graphics are very childish which got me interested at first. Because the game is customizable, you can choose to look at the world through a little boy's eyes or that of an adult. I chose to be an adult for a time, but it was always hard to play because it would become so boring. But at some point when I was playing Roblox, my interest in it started to fade away. The reason for this is because of the new updates they made to Roblox. Now there are so many advertisements everywhere and so many games being added every day. You never play with friends because everyone has their own account and their own games they are playing. Even if your friends are on, you have no idea who they are because they could just be anyone.

I personally could work on my vocabulary by playing Roblox because they have so many words that you will need to remember. In order to remember these words you can just go through your dictionary or the game and see how many words are similar. This is also good for children because they can learn a lot of vocabulary while playing games; this is similar to learning about a new language in school.
