I would have given what I could back, and I did to a select few. I am here to answer whatever questions you have, so it cannot happen as easily and so people have background on these select hijackers.

Because they are now able to see which emails are for which account, they can link the password from the data breach dump to see if it works on the ROBLOX ...

Below is a list with affected accounts. This list, but with passwords was leaked on v3rmillion, and therefore lots of people with malicious intent have access to it.

In ROBLOX, safety is one of the main concerns facing parents. The website can sometimes be a risky place for children because they sometimes come across people being rude, bullying, etc. [138] . ROBLOX is doing its best to make sure that its users stay safe while playing games. First, ROBLOX has safety features in place. A "report user" button is at the bottom right of every player's screen. This button appears if someone is acting rude to you in a game. Pressing it leads you to a page where you can add as much detail as you can about what happened and why it was wrong. The person reading the complaint will then investigate the situation and take necessary actions towards offending players. Players have also found ways to use this button for wrong reasons, like falsely reporting users to get them banned from playing ROBLOX.

Another disadvantage is that whenever a user updates their account, they are required to update the free robux script as well. Since it is hard for you to keep track of your own updates, you will need someone else to help you do this especially if you

are constantly updating your posts several times a day.

In 2021, ROBLOX launched a new feature called Builders Club which allows players to create their own games. Builders Club costs 10 ROBUX to join and provides a variety of benefits such as allowing players to create games, more options for game creation including scripting (Lua, in ROBLOX's case), increased visibility, can use the "Builders Club" tag in places like their profile and group titles, ability to add new hats to the catalog, t-shirt sales in online store.

The community is toxic in many ways, Robloxian's have made characters with inappropriate content such as swearing in their usernames or wearing inappropriate clothing that make it look like they are roleplaying as an adult even though they shouldn't be. Although there are ROBLOX moderators, there should be more since some of them don't join Roblox or just don't care about some of the problems that some people have on Roblox.

The purpose of this update was to improve the player's experience of ROBLOX's website and also earn more revenue for ROBLOX by making users spend more time on their website (thus charging users extra money). The biggest change in this update was the live chat feature, which allows players to communicate with other players while playing and has recently been updated to be implemented directly into every game on the site.
